FUTURE IMPROVEMENTS

The list of below features which could be implemented in future:

- 1 GUI can be implemented.
- 2 This Project can to converted into a stand-alone application or web application.
- 3 More features like redeeming the coupon and its status from unused to used can be added.
- 4 An Admin user can be created to add all the coupons.
- 5 All the coupons could be stored in a Database.
- 6 We could have users to search and buy the coupons.
